

How does the FCC see it as within there rights to overturn something the people of the State of New Jersey has decided upon? We don't want the calls. PERIOD. Additionally, I assure you, despite the 'statistical' conclusion of a 100% drop, there are those of us who still receive unwanted calls.

I as a New Jersey Tax Paying and FCC charges paying citizen request you leave our 'DO NOT CALL' alone. Its what we want. We have it. We want to keep it. You can let the peddlers bend the rules in the 49 other states , leave Jersey out of it !!
